

Ikarus::Materials::
VanishingStrain::stressesImpl

Ikarus::Materials::
VanishingStress::stressesImpl

Ikarus::toVoigtAndMaybeReduce

Ikarus::removeCol

```
graph LR; A["Ikarus::Materials::  
VanishingStrain::stressesImpl"] --> D["Ikarus::removeCol"]; B["Ikarus::Materials::  
VanishingStress::stressesImpl"] --> D; C["Ikarus::toVoigtAndMaybeReduce"] --> D;
```

The diagram illustrates a dependency or data flow. Three source boxes on the left point to a single target box on the right. The first two source boxes, 'Ikarus::Materials::VanishingStrain::stressesImpl' and 'Ikarus::Materials::VanishingStress::stressesImpl', are stacked vertically. The third source box, 'Ikarus::toVoigtAndMaybeReduce', is positioned below them. All three have blue arrows pointing to the 'Ikarus::removeCol' box, which is shaded gray.
